

'Alphabet O o P p' Block of the month August 2016

© September 2016 Heleen Pinkster Quilt Design.

The theme for 2016 is 'Alphabet in a hexagon'.

For quite a while, the 'hexagon-quilt' is a great hype.

I don't need to come up with new patterns because there are already enough beautiful ones.

Therefore, an idea that has been hidden in my head for a while:

The alphabet in hexagons.

You can sew them as a square block, but you can also just draw the pattern lines of the hexagon.

The height of the block is the size of the hexagon.

For your convenience, the blocks are printed at 15 x 15 cm and printed at 10 x 10 cm. Note: while printing the PDF, make sure to use the setting 'actual size' or 'do not scale'.
